DETAILED ACTION

1.   This office action is in response to application 10/046,926 and amendment filed

on 5/23/2006. Claims 6-15 and 21-22 remain pending in the application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37

CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no

later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview

with Mani Adeli (39,585) on 6/29/06.

The application has been amended as follows:

Abstract as originally filed has been replaced by:

--A method for routing of some embodiments defines global routes for nets in an arbitrary region of a circuit layout in which each net has a set of pins. The method uses a first set of lines of measure the length of the global routes, a second set of lines to measure congestion of the global routes, and a third set of lines to partition the arbitrary region into a first set of sub-regions. For each net, the method identifies a global route that connects a group of first-set sub-regions that contain the net's set of pins.--

The abstract provides concise statement of the invention.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

2.   Claims 6-15 and 21-22 are allowed over the prior art of record. The arguments

filed on May 23, 2006 have been fully considered and persuasive.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."
